

Bangladesh University of Professionals

Faculty of Science and Technology Department of Information & Communication Technology (ICT)

Course Title: Industrial Training

Course Code: ICE-3211

Submitted by

Section – A, Batch: BICE – 2022

Name: Nasrat Jahan

ID:2254901061

Walton ID: IA-539

Submission Date: 12.05.2026

Dashboard can have some information about companies top vendors with their company information. Showing signout button in dashboard is making it unprofessional also logout button exists in profile icon.

Make Number section specific which one to give like Telephone number, Mobile number with one sample example of numbers.

Even if I give invalid url of website it is always showing right tick mark. It should check browser and make clear if the site exists or not. If not then cross mark should be shown.

Business Type*		Year of Establishment	
Trader		May 12, 2026	
Number of Employees	Number of Factories	Preferred Port of Loading	
40000	10	Preferred Port of Loading	

What does it mean by preferred Port of Loading?

Company Introduction

Vendor Type*	Company Name*	Annual Revenue Avg.
Solo Proprietorship	Walton	1000000
Vendor Source*	Phone Number	Mobile*
☒ Inside Bangladesh Operates within Bangladesh.	01917250527	01963883265
☐ Outside Bangladesh Operates Internationally.		
Email Address*	Website* Valid URL (https://example.com)	Currency
nasratj35@gmail.com	myapp.com	Bangladeshi Taka (Tk)

You can see Company Profile is done saving. But I have used wrong website.

Currently, created items are not visible instantly. Vendors need a **'My Registered Items'** list view to track their progress, avoid duplicates, and easily identify which items are still missing from their profile.

What the second column does? There was no form for 2nd column at the time of registering new item.

The search bar fails to display results when using special characters like the “&”, “/” symbol (e.g., searching for "Electrical & Electronics"). Even if items exist, it shows "No Item Registrations."

Search bar cannot handle any typo. Vendor can forget what exactly the name is.

This screenshot shows a web browser window displaying a form for editing a business profile. The URL in the address bar is 'purchase.waltonbd.com/vendor/business-profiles/address-books/410/edit'. The form is split into two columns. The left column, titled 'Company Contact Person Information', includes input fields for 'First Name' (filled with 'Nasrat'), 'Last Name' (filled with 'Jahan'), 'Email Address' (filled with 'nasratj35@gmail.com'), 'Job Position' (filled with 'Intern'), 'Phone Number' (filled with '01917250527'), 'Mobile' (filled with '01963883265'), and 'Address' (filled with 'Kushtia, Bangladesh'). The right column, titled 'Social Media', has a 'Wechat' field and a 'Whatsapp' field (filled with '01963883265'). Below these is a 'Visiting Card' section with two upload boxes for 'Visiting Card Front' and 'Visiting Card Back', each containing the text 'Drag & Drop your files or Browse'. At the bottom of the form are two buttons: 'Save changes' and 'Cancel'.

Without adding Wechat and Visiting card information contact information can be saved. If any form is important to fill make them must fill.

- **Valid Files:** The "X" (remove) button is placed on the **right side** of the green bar.
- **Invalid Files:** The "X" (clear) button is placed on the **left side** of the red error bar.

This inconsistency can confuse vendors. A user might accidentally click the wrong area or struggle to find the "clear" button quickly when fixing an error, leading to a frustrating upload process.

Vendors who resign or change companies need a way to delete their old data (Trade Licenses, BIN, etc.) so they can safely re-submit new documents for their new job.

Business Profiles > Banking Informations > Create

Create Banking Information

Bank Account

Note: Walton Payment Method

- If the amount is less than 10,000 USD, Accept: T/T Payment
- If the amount is greater than or equal 10,000 USD, Accept: Letter of Credit Payment

Bank Name

Country

Currency

Account Name

Account Number

Swift Code

Branch Name

Branch Address

International Bank Account Number (IBAN)

Routing Number

Create Create & create another Cancel

Make the **IBAN** field optional for Inside countries vendors. Local bank transfers only require the Account Number and Routing Number. IBAN should only be mandatory if the vendor is registered as an 'International Vendor'.

Also I don't know about **Swift code** and **Routing Number**

Certification

ISO 9001:2015 ISO 45001:2018 ISO 22301:2019 ISO 14001:2015 ISO 17025:2017 ISO 14067:2018

BIS ROHS (Max 3 Files) UL FCM REACH (Max 3 Files) WHEE

Which other certification do you have?

OTHERS (Max 5 Files)

Save changes

I think there is no need to show all the container along with drag and drop option. Let one drop down menu bar where vendor will select one option and under that option there will have drag and drop option to drop files.

Update Password

Ensure your account is using long, random password to stay secure.

Current password Password Password confirmation

Prity2562@

The password confirmation field must match password.

Save changes

There should have “New Password” instead “Password”. Because it is not clearing exactly which password it needs.

Profile icon should be clickable. It can show vendor information with their image.

Clicking on My Account option taking vendor to My Profile. Instead it can take user to My Account page with two options Profile and Business Profiles. Or it can be removed as in left sidebar it already exists.

Edit button is not consistent with different places. Consistency is the best practice for professional website.

Vendors often need more details on what specific documents are required for these ISO or CE certifications. Clicking should open a small Modal or Popup with a detailed description of that specific certification and a sample of the required document.
